Personal Statement

I became interested in software development because I thrive on finding innovative solutions to problems and solving challenges. However, before I found coding I studied architecture at university, but I quickly recognised that wasn't my genuine interest, hence why I left the course after completing my first year. After looking for a new career to progress within I developed a passion for programming. This passion led to me enrolling in a coding bootcamp at NorthCoders. The quality that most defines me is my never-ending desire to grow and learn. This motivation makes me unique since it guarantees that I develop constantly and overcome any obstacle I am faced with. I'm eager to contribute new ideas for your company's growth and a relentless work ethic to your team and am dedicated to growing in the field of software development.

Technical Skills

Languages: JavaScript, Java, Selenium, Typescript using node.js and browsers as environment.
Testing: Test Driven Development (TDD), Jest and SuperTest.
Back-end: Express, SQL, PSQL, APIs, Python, PHP Databases, Seeding and Migrations.
Front-end: HTML, CSS, React, UX, Lighthouse and other accessibility tools.
Hosting: Cloudflare, Netlify.
Other: Paired Programming, Object-Oriented Programming, Asynchronous programming, Document Object Model, technical communication, SDL, Agile and SCRUM methodologies.
Transferable Skills: Good communicator, Confident, Resourceful, Adaptable, Critical Thinker.

Education

NorthCoders – JavaScript Software Development Skills Bootcamp
Start: June 2024 **End:** August 2024

- Intensive programme focused on full-stack software development.
- Gained expertise in modern programming languages and frameworks.
- Developed and deployed multiple full-stack applications.
- Completed a back-end API for news articles:
    - **URl:** https://cwazycodes-nc-news.onrender.com/.
    - **GitHub repo:** https://github.com/Cwazycodes/be-nc-news.
- Created a front-end React app that utilises the back-end API:
    - **URL:** https://cwazycodes-nc-news.netlify.app/.
    - **GitHub repo:** https://github.com/Cwazycodes/nc-news.
- Part of a team of four, that developed a fitness app to motivate users to stay active with an augmented reality pet. The tech stack contained Flutter and Python.
    - **GitHub repo:** https://github.com/ar-kt02/fe-pathpal.

MIMO – Full Stack Developer Certificate
Start: October 2023 **End:** July 2024

- Comprehensive course covering front-end and back-end development.
- Mastered technologies such as HTML, CSS, JavaScript and SQL.

Sheffield Hallam University – Bachelor of Architecture (CertHE)
Start: September 2020 **End:** January 2022
- Completed first-year coursework in architectural design and theory.
- Transitioned to software development after realising a stronger passion for coding.

Queen Elizabeth's Grammar School – A levels & GCSEs
Start: September 2013 **End:** March 2020
- A levels within Biology, Chemistry and Design Technology – Product Design.
- 5 and above in all GCSEs including English, Maths and Computer Science.

Work Experience

Amazon Delivery Driver
313 Logistics Start: May 2023 **End:** December 2023
DAC Couriers Start: January 2024 **End: Present**
- Delivered more than 300 parcels a day in a fast pace working environment.
- Observed protocols to guarantee that clients received their packages securely.
- Organised the van so parcels are easily located, and the route is completed efficiently.
- Experience operating a vehicle in various situations.

Warehouse Operative – Great Bear Distribution
Start: May 2022 **End:** June 2022
- Arranged large goods onto pallets in a safe conduct, wearing the appropriate PPE and adhering to safety procedures.
- Acquired crucial communication skills from interacting with teammates and team leaders to guarantee a job well done in a timely and safe manner.
- Fulfilled deadlines and made sure a lot of work was done in the allotted period by completing jobs on time.

NHS Covid Vaccine Passport Administrator – Ant Marketing
Start: May 2021 **End:** January 2022
- Examined the physical features of UK and foreign ID documents, such as holograms, watermarks, and other security features.
- Experience using videos to visually verify the person's identity comparing facial features with the ID photo.
- Worked in a hurried setting where targets had to be reached.
- Acquired important problem-solving abilities by adhering the instructions to resolve any difficulties encountered.

Hobbies and Interests

Boxing: Actively participate in boxing and previously competed as an amateur boxer; demonstrating discipline, resilience and a competitive spirit.
Technology and Crypto: Passionate about staying updated with the latest tech trends and innovations, including blockchain and cryptocurrency developments.
Sales: Completed a sales workshop by This Is Prime, gaining valuable skills in communication, negotiation and customer relationship management.
Reading: Avid reader of personal development books with favourites including Rich Dad Poor Dad by Robert Kiyosaki and Never Split the Difference by Chris Voss.
Fitness: Committed to maintaining a healthy lifestyle by attending weekly run clubs and often participating in hiking trips to Mount Snowden and the peak district.
